

## An evening with Ben Moske

Ben Moske is no longer an unknown quantity in the North German singer-songwriter scene. He began his journey alone with his guitar, in the cafe and bar scene in Stade and the surrounding area. His wife Lilly later accompanied him and he swapped the bars for clubs and smaller stages.

In 2017 Ben founded his own band, which has accompanied him in a different form since his successful participation in the Emergenza Band competition to this day. In 2018, Ben Moske released his first EP “Take My Hand”, which – despite its short playing time – paints a comprehensive picture of the young musician.

The album “Traveller” followed in 2021, which shows a much more detailed picture of the 33-year-old. A journey through the life of Ben Moske, told in 12 varied folk, rock and country songs. The album/concert by and with Ben a varied, unforgettable and touching atmosphere.

In keeping with his motto ***“Music gives people the chance to give space to the issues of their own soul,”*** an evening with Ben Moske and his band is an encounter with the issues in their hearts.
